PROJECTS

Portfolio Website

- **Situation:** Created a personal website from scratch using HTML, CSS, and JavaScript to build the first page.
- **Task:** To create a personal website to showcase your skills and interests
- **Action:** Self-taught and used pure HTML, CSS, and JavaScript to build the first page of the website.
- **Result:** Successfully created a personal website with a first page built using HTML, CSS, and JavaScript, showcasing my skills in web development and ability to learn new technologies on my own.

AutoCAD Plugin

- **Situation:** Needed to create drawings in AutoCAD but the process was time-consuming.
- **Task:** To reduce the time it took to create the required drawing in AutoCAD
- **Action:** Self-taught AutoLISP through YouTube videos and created a plugin for AutoCAD using AutoLISP.
- **Result:** Successfully reduced the time it took to create the required drawing by almost 74% and showcased the ability to learn new technologies on your own and technical skills in using AutoCAD and AutoLISP

WORK EXPERIENCE

Freelance Draftsman @ Seaside Engineers

JUL 2020 – AUG 2022 | USA (Remote)

- Created drawings for screen enclosures, permit drawings for residential projects, and custom drawings at the request of the Engineer.
- Improved efficiency and accuracy through a custom-built plugin for AutoCAD.
- Showcased problem-solving ability and resourcefulness in finding ways to improve the drawing process.

This experience highlights my technical skills in using AutoCAD and Auto LISP, my ability to work independently and effectively, and my ability to continuously improve my workflow.

Intern Architect @ RC Architecture

FEB 2021 – JUL 2021 | Bangalore, India

- Assisted in creating drawings for various teams, conducting research, and completing tasks for multiple departments.
- Gained hands-on experience in the field of architecture, developing skills in attention to detail, research, time management, and collaboration.
- Attended meetings and gained valuable insight into the day-to-day operations of an architecture firm.
- Showcased strong work ethic and eagerness to learn and contribute to the team.

This experience as an Intern Architect highlights my hands on experience in the field of architecture, my developing skills, and my strong work ethic and eagerness to learn and contribute to the team.

EDUCATION

Queen's University Belfast

MSc. Software Development

Sep. 2022 – Sep.2023

- Programming
- Database
- Computing Foundations
- Software Engineering
- Web Development
- Individual Software Development Project

Dayananda Sagar College of Architecture, India

BArch. Architecture

Aug. 2016 – Aug.2021

Nutana PU Science College, India

A-Level College

Jul. 2014 – Jul.2016

Bapuji Higher Primary CBSE English Medium School, India

School | Junior High School | Senior High School

Aug. 2004 – Aug.2014

SKILLS & INTERESTS

Programming Languages: Java; HTML; CSS; JavaScript; MySQL; Python; Auto LISP.

Applications: Eclipse; IntelliJ; VS Code; Microsoft Office; AutoCAD; Adobe Creative Cloud.

Courses: Learn Python (Free Code Camp); Auto LISP (YouTube).

Interests: Gaming; Archery; Travelling; 3D Modelling; Gym; Binge watching random YouTube videos; Reddit; Cooking.
