Nutana PU Science College, India

Grade = 83.83%

2004 – 2014 | **School**

Bapuji Higher Primary CBSE English Medium School, India

Grade = 7.4 CGPA

PROJECTS

AutoCAD Plugin

•**Situation:** + Needed to create drawings in AutoCAD
+ The process was time-consuming.
• **Task:** To reduce the time it took to create the required drawing in AutoCAD
• **Action:** + Self-taught yourself AutoLISP through YouTube videos
+ Created a plugin for AutoCAD using AutoLISP.
• **Result:** + Successfully reduced the time it took to create the required drawing by almost 74%.
+ Showcased your ability to learn new technologies on your own and your technical skills in using AutoCAD and AutoLISP.

Portfolio Website

•**Situation:** + Created a personal website from scratch
+ Used HTML, CSS, and JavaScript to build the first page.
• **Task:** To create a personal website to showcase your skills and interests
• **Action:** + Self-taught yourself HTML, CSS, and JavaScript
+Used pure HTML, CSS, and JavaScript to build the first page of the website.
• **Result:** +Successfully created a personal website with a first page built using HTML, CSS, and JavaScript
+Showcased your skills in web development and your ability to learn new technologies on your own.

COURSES

2020 | **PYTHON INTRODUCTION**

Elective in Undergraduate

2020 | **LEARN PYTHON**

Freecode Camp

2021 | **LEARN HTML**

Elective in Undergraduate

2021 | **AUTOLISP PROGRAMMING**

Cyber CAD Solution (YouTube)

WORK EXPERIENCE

JUL 2020 – AUG 2O22 | **FREELANCE DRAFTSMANS**

Seaside Engineers, USA (Remote)

· Created drawings for screen enclosures, permit drawings for residential projects, and custom drawings at the request of the Engineer

· Improved efficiency and accuracy through a custom-built plugin for AutoCAD

· Showcased problem-solving ability and resourcefulness in finding ways to improve the drawing process

This experience highlights my technical skills in using AutoCAD and AutoLISP, my ability to work independently and effectively, and my ability to continuously improve my workflow.

FEB 2021 – JUL 2O21 | **INTERN ARCHITECT**

RC Architecture, India

· Assisted in creating drawings for various teams, conducting research, and completing tasks for multiple departments.

· Gained hands-on experience in the field of architecture, developing skills in attention to detail, research, time management, and collaboration.

· Attended meetings and gained valuable insight into the day-to-day operations of an architecture firm.

· Showcased strong work ethic and eagerness to learn and contribute to the team.

This experience as an Intern Architect highlights my hands-on experience in the field of architecture, my developing skills, and my strong work ethic and eagerness to learn and contribute to the team.
